

Cordless Rechargeable pool and spa vacuum

Pool Blaster Catfish Pool/Spa Cleaner

Keep your hydrotherapy pool water clean and debris-free with this new Pool Blaster Catfish Pool/Spa Vacuum. The perfect pool cleaner for pools and spas.

The Cordless, Rechargeable Pool Blaster Catfish is unlike any other pool and spa vacuum available today. Combining a lightweight, portable design with uncompromised suction and cleaning power, the Catfish is the ideal vacuum for your pool or spa. Small enough for spas, but strong enough to clean above and below ground hydrotherapy and home use pools, the Catfish can handle the toughest of dirt with ease and efficiency.

The Catfish Pool Cleaner is powered by environmentally safe, rechargeable batteries offering cordless and hose less use for up to 45 minutes. The Catfish Max Cone technology compacts the gravel dirt, leaves and other type of debris into its easy to empty reusable filter bag.

Versatility and power, the Pool Blaster Catfish has it all!

- Reusable Filter Bag removes leaves, sand, gravel, and algae
- No messy hoses or additional pumps
- Totally independent from main filter systems
- Use by hand or attach to any standard telescopic pole (not included)
- Lightweight
- User friendly
- Affordable
- Rechargeable battery (nickel metal hydride)
- Run Time: Up to 45 Minutes on a full charge

Featuring a 7.4" vacuum head, the Catfish can be used to cover large areas of the pool, or the head can be removed, making the unit a powerful spot cleaner able to manoeuvre into corners and crevices smoothly. With the Catfish, you can clean the parts of your hydrotherapy pool that need it quickly and efficiently, saving you time and energy.

It is capable of cleaning 33 gallons per minute, completely independent from main filter systems, and it's lightweight and easy-to-use. This Pool Blaster can be attached to a telescopic pole (not included) for extended reach, and it can clean all types of pools and spas without messy hoses or additional pumps. It works on any D-Cell battery, and it has a rechargeable battery.
